

Manifest Money Now Program

It's Day 2 of the Manifest Money Now FB Challenge.

You've been doing great, so take a moment to congratulate yourself on showing up 2 days in a row!

On day 1 you did a makeover of your money story and today you're going to choose a symbol to represent money.

Why a symbol? Well, choosing a symbol to represent money helps to bypass your belief systems while connecting you with the *energy* of money. Raising your vibration and upgrading your money mindset are essential for attracting money now.

Day 2 Hidden Magic in Money Symbols

What does money represent to you?

Freedom, abundance, love, fun...

The thing is, it's not the physical money itself that we want. It's what we **think money will give us.**

One reason you're not manifesting the money you want is the negative stories and meanings you've attached to money, which **blocks more of it from coming** into your life.

A way around this while you're upgrading your beliefs, is to **choose a symbol** that represents the freedom or abundance money brings you.

You see, when you choose a symbol that connects you to that freedom and abundance you want, there is **no negativity or limiting beliefs attached to it.**

The more time you can spend experiencing freedom, love, abundance...now, **the more you will draw those experiences to you.**

So essentially, we're removing the elephant in the room, MONEY, and using a substitute to get the same feelings we desire.

Then we **become a match** to the very things we want.

So let's get started!

Your Prompt for Day 2:

Choose a symbol that represents what you believe money brings you.

You can take a pic, print or draw a picture of it. Make it fun!

Be sure to choose a symbol that makes you feel good, so you attract more things and opportunities to feel good about.

Example:

I have a photo canvas of the beach hanging on my office wall. Seeing it conjures up so many memories of relaxing on the beach, where I feel freedom, ease and joy.

You can choose a physical symbol like I did OR you can choose a moment in time when you experienced absolute freedom, or whichever feeling money gives you.

Perhaps you get that feeling from riding down a roller coaster, laying on a blanket in the park cloud-gazing, lounging on the beach with nothing on your schedule, or riding a bike.

You get to pick and write it out on a post-it note!

Remember to keep your symbol or post-it note in a place you will see every day, so you continue to connect with those feelings of freedom and abundance.

Have fun with this one!
